CAREER OBJECTIVE

Being a Computer Science student skilled in C, Python, Java, and Web Development, seeking an entry-level opportunity to apply programming, problem-solving, and development skills to build efficient, scalable applications while contributing to organizational success and continuous learning.

EDUCATION

B.Tech, Computer Science And Engineering MLR Institute of Technology	2024 - 2028
Senior Secondary (XII), BIEAP Science Fiitjee Junior College Percentage: 93.50%	2022
Secondary (X), CBSE Narayana High School, Visakhapatnam Percentage: 90.00%	2022

PROJECTS

TIMETABLE MANAGEMENT SYSTEM

Feb 2026 - Present

Managing academic timetables manually or through separate systems for classes, faculty, and rooms often leads to data inconsistency, scheduling conflicts, and increased administrative workload. Any change in one schedule must be updated in multiple places, which increases the risk of errors such as faculty double-booking or room conflicts. These issues make timetable management inefficient and difficult to maintain. We need synchronized updates that prevent conflicts, and provide accurate and easily accessible timetable information for administrators, faculty, and students.

SKILLS

- | | | |
|-----------|-----------------|--------|
| • Python | • C Programming | • Java |
| • AutoCAD | • MySQL | • HTML |
| • CSS | • Node.js | |

EXTRA CURRICULAR ACTIVITIES

- 1. Participated in hackathons and coding competitions, enhancing problem-solving skills
- 2. Completed multiple academic and personal projects using programming and web technologies
- 3. Attended technical seminars and workshops to gain industry knowledge
- 4. Actively involved in programming contests and technical events

ADDITIONAL DETAILS

- Certified in technical courses, participated in Zignasa Hackathon and Avinya Coding competition, received Project Expo and seminar certificates, with strong skills in coding, problem-solving, and a fast learning ability.
